

Schüco AutomotiveFinish

Brilliant metallic design for PVC-U windows and doors

Attractive design options with brilliant metallic colours

Creative freedom in external and internal design with Schüco AutomotiveFinish.

Schüco AutomotiveFinish allows new design effects to be combined with easily accessible, attractively priced services.

A completely new colour-coating process for PVC-U profiles is the result of three years collaborative development work between Schüco and a leading manufacturer of automobile paint. This has produced brilliant metallic shades and an environmentally friendly, resource conserving manufacturing process that was sponsored by the Deutsche Bundesstiftung Umwelt (German Federal Environmental Foundation).

Metallic look on PVC-U – the combination of a brilliant surface finish with the fabrication benefits of PVC-U. Schüco AutomotiveFinish opens up new, top-quality design opportunities, both inside and outside. The high-quality coating provides outstanding colourfastness and weather resistance, which fulfils high technical requirements. Its special feature is that windows, doors and accessories can be designed tone-on-tone. The range includes 9 metallic colours for use inside and outside, with different degrees of gloss and textures.

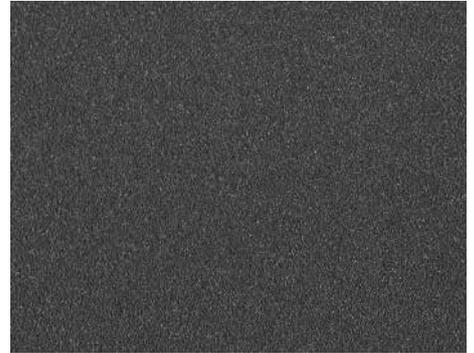

Colour range for use inside and outside

Metallic Black

Dark Grey

SAF-DB 703

SAF-DB 703 Line

SAF-RAL 9007

SAF-RAL 9006

Light Silver

SAF-RAL 140-M

Deep Bronze

Colour differences between the printed colour samples and the original colours are unavoidable for technical reasons.

Schüco AutomotiveFinish – brilliant metallic design for PVC-U windows and doors

Schüco AutomotiveFinish – from your Schüco partner

You can expect the best from us. In consultancy, planning and construction. We will gladly help you to select the right colour for your PVC-U units and provide you with expert advice for all queries relating to ...

- Surface finish and colour selection,
- Security features,
- Thermal insulation,
- Accessories.

Visit one of our showrooms. We would love to show you our reference projects and talk to you in detail about the work we do.
